

27 September 1971

Lt General Otto J. Glasser  
DCS Research and Development  
Hq USAF

Dear Otto

I understand that the program documents from Systems Command and Systems Analysis relative to decisions on Project SPIKE are on your desk at this time.

I certainly want to avoid the overtones of a wholly ADC vested interest in this project, but as the ultimate user of this proposed system, I am naturally anxious to see it go through the proper R&D cycles, reach General Ryan's desk for consideration, and be demonstrated as a working system.

I will greatly appreciate any assistance you can lend to Project SPIKE to see that it has its proper day in court.

Sincerely

*THOMAS K. McGEHEE*  
THOMAS K. McGEHEE, Lt Gen, USAF  
Commander
